Programming Languages: JavaScript, TypeScript, Python, Java, Kotlin, SQL

PROFESSIONAL EXPERIENCE

Digital Infrastructure Specialist | The Fly Bottle, Toronto, ON *Sep 2025 – Present*
Full-stack development · Workflow automation · Systems design · Solo ownership

- Started as a volunteer (Sep 2025) and transitioned to a full role upon graduating Dec 2025; own the organization's entire digital infrastructure for the Circles department
- Sole developer of the Circles Platform — a custom full-stack web app (Next.js, MongoDB, NextAuth.js, Vercel) replacing fully manual workflows with a centralized, automated system
- Built user registration & Circle proposal flows, automated email pipelines (Resend), secure mass BCC admin tools, and background jobs for Telegram invite distribution
- Developed asset/syllabus upload management (UploadThing), secure auth, and performance monitoring — reducing department workload to a few clicks per workflow
- Preceded by automating Google Sheets processes with Apps Script before identifying architectural limits and building the full web application from scratch

Data Operations Associate | IKEA, Toronto, ON *Summer 2025 (Full-Time)*

- Managed product and inventory data accuracy across store systems during high-volume summer period; collaborated cross-functionally to maintain operational efficiency

Sales Associate | IKEA, Toronto, ON *2024 – 2025 (Part-Time)*

- Delivered customer service across departments while completing studies; built communication, organization, and time-management skills in a high-traffic retail environment

Back-End Developer | Faraz Design, Remote
WordPress · React · Node.js · Payment integration · Client delivery *2024 (Internship)*

- Developed and shipped multiple client websites across industries — WordPress for content-driven sites and brochure builds, React + Node.js for more complex business applications
- Integrated payment processing end-to-end for e-commerce clients, gaining hands-on experience with third-party payment APIs and production checkout flows
- Owned full back-end accountability on each project alongside the lead designer; first experience carrying real-world responsibility on live, paying-client work — built habits of ownership and professional delivery

NOTABLE PROJECTS

The Berries Pastry Animation Website — cinematic scroll-storytelling site with AI-generated hero film; React, GSAP | Live project
Where Ideas Begin — interactive 3D experience; Next.js, React Three Fiber, Three.js, GSAP | Live Experience
Circles Platform (The Fly Bottle) — Next.js, MongoDB, Resend, NextAuth, Vercel | app.theflybottle.org
HeartByte (campus health platform) — React, Next.js, Node.js | heartbyte.site
Fragments (cloud microservice) — Node.js, Express, AWS Cognito/S3, Docker, GitHub Actions

EDUCATION

Advanced Diploma — Computer Programming & Analysis — Seneca Polytechnic, Toronto, ON *Dec 2025*
Diploma — Business — Seneca Polytechnic, Toronto, ON *Dec 2020*
